# MIRALI THANKI

**Senior Full-Stack Developer | Laravel · Vue.js · PHP · API Integration · Automation Solutions**

Porbandar, Gujarat, India | +91 94292 03572 | meerathanki09@gmail.com

GitHub | Upwork | Fiverr

## PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 8+ years of experience designing, developing, and optimizing web applications, APIs, multilingual platforms, automation systems, and enterprise dashboards. Expert in Laravel, Vue.js, PHP, and MySQL, with a strong focus on scalable backend architecture. Delivered 40+ projects for global clients, consistently prioritizing performance, maintainability, and measurable business impact.

## CORE SKILLS

Laravel · PHP · Vue.js · JavaScript · REST APIs · MySQL · Docker · Git · CI/CD · Tailwind CSS · Bootstrap · Payment Gateway Integration · Webhooks · Queue Jobs · Cron Jobs · RBAC · Automation Platforms · Third-Party API Integrations

## KEY ACHIEVEMENTS

- Delivered 40+ international web applications and business solutions across diverse industries.
- Implemented multilingual systems supporting 6+ languages.
- Improved backend performance by up to 60% through caching and queue optimization.
- Integrated 20+ third-party APIs, including payment gateways, mapping services, automation tools, and AI platforms.
- Built automated scheduling and workflow systems that reduced manual effort by 80%.

## PROFESSIONAL EXPERIENCE

**Freelance Senior Full-Stack Developer** | *Remote* | *2019 – Present*

- Developed Laravel and Vue.js applications for clients across multiple industries.
- Built dashboards, admin panels, APIs, CRM systems, booking systems, and automation tools.
- Integrated Stripe, Razorpay, ChatGPT/OpenAI, mapping services, and other third-party platforms.
- Designed scalable backend architectures using queues, caching, and optimized database structures.
- Converted Figma designs into responsive, production-ready user interfaces.

**Full-Stack Developer** | *Simbeez, Rajkot* | *2018 – 2019*

- Developed web applications using Laravel, WordPress, and Node.js.
- Built e-commerce modules and responsive front-end experiences.
- Collaborated on deployment, testing, debugging, and performance optimization.

## MAJOR PROJECTS

- **Multilingual Emergency & Accessibility Form System —** Developed 60+ field dynamic forms with Azure Maps integration, multilingual support, and performance optimization.
- **Automated Blog Scheduler —** Built queue-based publishing workflows with cron scheduling, monitoring, retry handling, and reporting.
- **Automation & Webhook Platform —** Created advanced webhook processing systems and integrated AI-generated content workflows.
- **E-Commerce & Booking Systems —** Implemented payment gateways, inventory management, invoicing, booking flows, and responsive dashboards.

## TECHNICAL STACK

- **Backend:** PHP, Laravel, REST APIs
- **Frontend:** Vue.js, Vuex, JavaScript, jQuery, React (Basic)
- **Database:** MySQL
- **UI/UX:** CSS, Bootstrap, Responsive Design
- **Tools:** Git, Docker, Postman, VS Code, PHPStorm
- **Other:** Queue Jobs, Cron Jobs, Excel Import/Export, Payment Gateways, Automation Systems
